

Mechanical Engineering Announcement of a Faculty Position: 2020-2021

The Department of Mechanical Engineering (ME), University of Michigan (U-M), Ann Arbor, seeks outstanding applicants for full-time, tenured or tenure-track, faculty positions. Underrepresented minorities and women are strongly encouraged to apply. The positions are open for either junior or senior-level appointments. The focus of this search is for candidates working at the intersection of engineering, social justice, or common good, including work that addresses anti-racism, inclusion, equity or other topics. Prior record at this intersection is valued, but not essential for junior applicants. The candidates' research, teaching and inclusion statements should define common good or social justice as they apply towards their career goals.

Applicants should have an earned Ph.D. degree in mechanical engineering or an appropriate field. We seek scholars who will provide inspiration, leadership, and impact in research, teaching, and service. To ensure full consideration, candidates are encouraged to apply **now** and before **December 1, 2020**, as applications will be reviewed immediately upon receipt.

All applicants should submit, in PDF format: (1) a detailed c.v., (2) statements on research and teaching and contributions to diversity, equity and inclusion (prior and/or proposed work related to the intersection of engineering and social justice or common good can be captured in any or all of these statements), (3) up to three representative publications, and (4) the names and contact information of at least three references. Applications must be submitted electronically at <http://me.engin.umich.edu/facultysearch>.

The University of Michigan is a non-discriminatory/affirmative action employer, and is responsive to the needs of dual career families.

The U-M Mechanical Engineering Department is a vibrant, inclusive and collegial community, and we recently celebrated the sesquicentennial anniversary of our department. We are home to 72 tenured/tenure-track faculty, 23 research faculty, almost 500 graduate students (including over 250 Ph.D. students), and over 800 undergraduate students. We are well known for our leadership in core mechanical engineering disciplines as well as in interdisciplinary and emerging areas. The Department is consistently ranked among the top mechanical engineering programs nationally and internationally by the QS World Rankings, U.S. News & World Report, National Research Council Ph.D. Program Assessments, and others. More information about the Department can be found at: <http://me.engin.umich.edu/>.

The University of Michigan has a long and distinguished history. It was founded in 1817, 20 years before the territory became a state, and was one of the first public universities in the nation. Throughout its 200-year history, U-M has maintained the highest levels of education, scholarship, and research. Ann Arbor is a very attractive city, regularly rated as one of the best places to live in the nation.
