

**AST/ASO/FULL Professor**  
**Mechanical & Aerospace Engineering**  
**Herbert Wertheim College of Engineering**  
**University of Florida**

The Department of Mechanical & Aerospace Engineering (MAE) in the Herbert Wertheim College of Engineering (HWCOE) at the University of Florida invites applications for multiple full-time, nine-month tenure-track faculty positions at the rank of Assistant Professor although, exceptional candidates at higher ranks will be considered. The positions have an anticipated start date of August 2023.

We are seeking candidates in the following areas:

- Space Mechanics and/or human spaceflight whose areas of interest include but is not limited to the following: space propulsion, space domain/space situational awareness (e.g., in cislunar/ex-GEO regions), or any related spacecraft/space science fields.
- Combustion/Multi-Phase flow experimentalist.
- Green Energy with a preference for hydrogen production and utilization.
- Energy resiliency and security using AI focused methods

The faculty member will be expected to teach undergraduate and graduate courses within the mechanical and aerospace engineering curricula; initiate and sustain externally sponsored research programs; recruit and supervise graduate students; and engage in service activities for the University and the profession. Applicants must possess a PhD in a related field by the start date. Dedication to excellence in research, teaching, and service, and evidence of scholarly achievements are required. The candidate should have a record of or demonstrate the potential for successful proposal writing, PhD student mentoring, scholarship, and classroom teaching.

The Department of Mechanical & Aerospace Engineering at the University of Florida (<https://mae.ufl.edu/>) has over 60 faculty members working in all aspects of mechanical and aerospace engineering and is expected to grow over the upcoming years. The total student population is approximately 2500 with nearly 200 in the PhD program. The latest US News & World Report has MAE ranked as 19 and 15 for the aerospace and mechanical engineering programs, respectively, among graduate engineering public universities in the US. The University of Florida is the flagship campus of the State of Florida university system and is ranked as the #5 best public US university according to US News & World Report.

The search committee will begin reviewing applications immediately, with the first full committee screening occurring on, October 15, 2022 and will continue to receive applications until the position is filled. All applications must be submitted through UF Career website at: <https://facultyjobs.hr.ufl.edu/>. (Please see Job Requisition #522866). Complete applications must include the following files in PDF format: (1) cover letter which specifies the topic area listed above, (2) a curriculum vitae; (3) a statement describing the applicant's experience in enhancing diversity, equity and inclusion through research, teaching, or service, and vision for promoting a more inclusive experience at the University of Florida; (4) a research program vision statement detailing short- and long-term goals; (5) a teaching statement describing the applicant's teaching experience and vision for developing a teaching program at the University of Florida; (6) up to three refereed journal or conference articles (co-)authored by the applicant; and (7) the names, addresses, phone numbers, and email addresses of no less than three and up to five references. To be competitive, candidates for this faculty position should submit a cover letter, research statement, and education vision statement that complement the overall mission of the department.

The selected candidate will be required to provide an official transcript to the hiring department upon hire. A transcript will not be considered "official" if a designation of "Issued to Student" is visible. Degrees earned from an educational institution outside of the United States are required to be evaluated by a professional credentialing service provider approved by National Association of Credential Evaluation Services (NACES).

Questions about this position may be directed to the Faculty Search Chair, [maefacultysearch@mae.ufl.edu](mailto:maefacultysearch@mae.ufl.edu).

The University of Florida is an equal opportunity employer. Women and minorities are encouraged to apply. The "government in the sunshine" laws of Florida require that all documents relating to the search process, including letters of application/nomination and reference, be available for public inspection. If an accommodation due to a disability is needed to apply for this position, please call (352) 392-2HRS or the Florida Relay System at (800) 955-8771 (TDD).

University of Florida values broad diversity in its faculty, students, and staff, and creates an inclusive and welcoming climate for learning, research, and other work. We strongly encourage applications from women, members of groups that are underrepresented in the profession, individuals with disabilities, and veterans. The college of engineering has a policy of non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinions or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans' Readjustment Assistance Act. According to Florida law, applications and meetings regarding applications are open to the public on request.
