Job Opening: Postdoctoral Scholar
Department of Mechanical and Civil Engineering, California Institute of Technology

This posting serves to notify interested applicants of an opening for a Postdoctoral Scholar at the California Institute of Technology. The subject of research fits onto the larger topic of high-speed turbulent flows with large gradients. Experience with Direct Numerical Simulation and Large Eddy Simulation modeling and coding is required, and a solid background on hypersonic flows and boundary layer flows is highly desirable. This is an on-site position.

Applicants should e-mail the following materials to Dr. Josette Bellan (jbellan@caltech.edu; josette.bellan@jpl.nasa.gov):

- A complete Curriculum Vitae, with lists of (i) refereed journal publications and (ii) name, address, e-mail and telephone number of at least three references.
- An electronic copy for each of his/her most recent journal publications.
