Postdoc Positions

Combustion/Kinetics/Plasma/Laser Diagnostics Yiguang Ju Lab, Princeton University

The combustion and low carbon energy laboratory at Princeton University (Prof. Yiguang Ju's group) is looking for one or two postdocs in the area of combustion, kinetics, plasma, and laser diagnostics.

The candidate needs to have a strong publication track record in combustion and/or plasma diagnostics. The research projects are related to ammonia/H₂ combustion or plasma assisted chemicals and materials manufacturing.

If you are interested, please send a CV to professor Yiguang Ju at Princeton University by email: yju@princeton.edu

We look forward to working together.
